### **Significant new factors**

Since the date of the Original Prospectus, the Issuer has become aware of significant new factors which are capable of affecting the assessment of the Notes. Therefore, the following changes are made to the Original Prospectus:

#### **1. Description of the Issuer - Recent Developments (page 53)**

At the end of the section headed "Recent Developments" which commences on page 53 of the Original Prospectus the following sub-heading and paragraph are included:

*"No payments on profit-related instruments for the business year 2011*

On 20 September 2011, the Management Board of VBAG announced that due to the increasingly difficult economic environment a payment on profit-related instruments (shares, participation capital, hybrid capital and supplementary capital) in 2012 for the business year 2011 is unlikely from today's perspective. According to a current forecast the main reasons for the profit warning are an increasingly difficult economic environment which negatively affected the valuation of participations (VB Romania), the sale of participations as well as earnings forecast impacted by potential additional financial burdens (e.g. measures by the Hungarian government with respect to foreign currency loans)."
